

Crop Climate Project - Potato Observation Form

Thank you for taking the time to record your observations of your potato varieties. Please select several potato plants in the same row and record your observations below. Use a separate form for each variety.

Variety: _____
 Observer Name: _____
 Location: _____

Planting Date: _____
 Emergence Date: _____
 Flowering Date: _____
 Harvest Date: _____

Growing Notes	Details:	
Irrigation	Yes	No _____
Mulch	Yes	No _____
Hill	Yes	No _____
Fertilize	Yes	No _____
Additional Growing Notes:		

Plant Health Notes	Details:	
Insects	Yes	No _____
Disease	Yes	No _____
Other?	Yes	No _____
Additional Health Notes:		

Harvest Notes	Yield per plant				
Please circle the most appropriate response.	(average grams or pounds):				
Average number of potatoes per plant (compared with other varieties)?	Very few 1-2	Few 3-5	Medium 5-10	Many 10-15	Very Many 15+
Potato size (compared to typical commercial sizes - Chieftain, Russet, Yukon Gold)?	Very small	Small	Medium	Large	Very large
Yield (compared to other varieties you grow)?	Very low	Low	Average	Above average	High
Appearance Note presence of each	Scab	Cracks	Weird shapes	Green ends	Excellent
Additional Harvest Notes:					

Would you grow this potato variety again? Why or why not. Please indicate anything unusual or special about this variety. E.g., comment on weather or site conditions, cooking and tasting quality, if applicable.
